

Precision

AEROSPACE BUSHINGS

OUR QUALITY POLICY

As Precision Aerospace Bushings, we strive to become a trusted and preferred brand in our industry by providing our customers in the aerospace and defense sectors with the principle of “Right Product – Right Time – Right Price.”

Within the framework of the ISO 9001 Quality Management System, we are committed to:

- Offering short lead times and competitive pricing,
- Fully, accurately, and timely meeting customer requirements,
- Conducting continuous improvement activities with a process-oriented management approach,
- Enhancing our quality culture by encouraging employee participation,
- Ensuring full compliance with legal and regulatory requirements,
- Providing innovative solutions by considering technological advancements and customer feedback.
